Basic figure 8 for aerial silks

Price	**20.00 Euro**
Previous price	~~**24.60 Euro**~~
Number	**PR_CD303_OSEMKA**

Product description

A device usually used for descents or spotting.

In aerial dance, it works perfectly as an element for suspending an aerial silk.

Through the lower - larger eyelet of the eight, you can easily and safely put the folded fabric in half.
The upper - smaller eyelet allows you to attach the connector and thus allows you to munt the scarf to the suspension point.

Material: aluminum
Strength in the longitudinal axis: 25-35 kN
Weight: 80 g
Colors: black

ATTENTION:

The figure eight is anodized in various colors, the anode may wear out during use and its fragments may fall apart. The figure eight may be used until the occurrence of max. 1mm cut inside the material. After such cut to a thickness of 1 mm, the figure eight should be discarded inside the material (aluminum).
