Professional aerial hoop sling - circus hoop strop - aerial sling

Price	17.22 Euro
Availability	Not available

Product description

Professional and safe solution for suspending an aerial hoop. An aerial hoop is an indispensable apparatus for aerial acrobatics.

The product offered by Flying Rose Sport is a stiff belt made of polyester. It is filled with yarn with a special weave, thanks to which the slings are characterized by maximum strength. Aerial hoop slings make it possible to securely and safely mount an aerial hoop to the ceiling. They are also pleasant to touch.

Specification

- Material: polyester filling: yarn
- length: 1 meter (other lengths on special request)
- safety factor 7: 1

The available colors correspond to the maximum safe load as below:

- purple (1000 kg)
- black (green) (2,000 kg)
- yellow (3000 kg)
- gray (4000 kg)

The aforementioned safety factor means that the gray sling (4,000 kg) breaks at 28,000 kg. This is as much as 28 tons of load. Therefore, we recommend choosing a sling with a max. load 1000-2000 kg. The slings offered in our store meet all safety standards, and also have a declaration of compliance.

If you need slings with a length other than the standard 1 meter, please CONTACT US. We are able to make any length on special request.
